SpaceMouse™ Pro

Superior 3D Navigation for Professionals

SpaceMouse Pro is the latest addition to 3Dconnexion's line of professional 3D mice. With an advanced ergonomic design and innovative On-screen Display, it delivers superior comfort and a simpler, more productive workflow. Fifteen large, fully programmable function keys provide you with quick access to frequently used application commands, standard views and keyboard modifiers, while the On-screen Display lets you check function key assignment. With a full-size, soft-coated hand rest, SpaceMouse Pro supplies you with exactly the right tools at the right time making it an indispensable tool for anyone who works with 3D software.

SpaceMouse™ Pro

Superior 3D Navigation for Professionals

Professional Navigation

The key to SpaceMouse Pro's smooth and intuitive 3D navigation is the patented **six-degrees-of-freedom (6DoF)** sensor.

Simply push, pull, twist and tilt the controller cap to simultaneously pan, zoom and rotate your digital model or camera positions in 3D space.

SpaceMouse Pro's **QuickView Keys** give you fingertip access to 12 views, making it easier to detect errors, explore alternatives and present your work more effectively for review.

Advanced Ergonomic Design

The **full-size, soft-coated hand rest** ensures maximum comfort by positioning your hand perfectly for the **controller cap**.

Each of SpaceMouse Pro's **15 tactile, fully programmable buttons** is conveniently positioned, allowing quick access to frequently used commands.

Actual size

Application Control

SpaceMouse Pro automatically assigns appropriate commands to its four **Intelligent Function Keys**, and a convenient **On-screen Display** provides a visual reminder of function key assignments on your computer screen. The **Virtual NumPad** lets you input numerical data into your application using the standard mouse, rather than the keyboard.

Want even more? Check out SpacePilot™ Pro Ultimate 3D Navigation for Power Users

SpacePilot Pro enables professional design engineers to excel in today's most demanding 3D software environments.

- 3Dconnexion patented six-degrees-of-freedom (6DoF) sensor.
- LCD Workflow Assistant plus On-screen Display.
- QuickView Keys – one touch access to 32 views.
- Dual-function Intelligent Function Keys – easy access to 10 application commands.
- Keyboard Modifiers (Ctrl, Shift, Alt and Esc).
- Full-size, soft-coated hand rest.
