# SpaceMouse® Pro Wireless

Product           SpaceMouse Pro Wireless  
Document        Product Copy Master Document (PCMD)  
Category         3D Mouse  
Language         EN

Part-Nr.         3DX-700075  
EAN / UPC       4 260016 341047 / 8 21123 70075 8

## Product Claim

The Standard for CAD Engineering

## Product Copy - short

SpaceMouse® Pro Wireless provides a real-time connection to your 3D content with 3Dconnexion 2.4 GHz wireless technology and a two-month battery life. Work smarter, not harder as appropriate commands are automatically assigned to four Intelligent Function Keys. Detect errors, explore alternatives, and present your work more effectively for review with QuickView Keys. Minimize hand movements courtesy of convenient Keyboard Modifiers. Enjoy comfort with the full size, soft-coated hand rest and ergonomic positioning of all 15 soft-touch buttons.

## Product Copy - long

### SpaceMouse® Pro Wireless

Superior 3D Navigation. Professional Performance. World Class Ergonomics.  
Two Month Battery Life. No Wires.

### Immersive Navigation of 3D Engineering Design

Connect on a deeper level with your 3D content. The SpaceMouse Pro Wireless patented 6-degrees-of-freedom (6DoF) controller cap delivers natural feeling 3D navigation designed specifically for professionals. Smoothly pan, zoom and rotate models and cameras. Easily position

parts, assemblies and designs. Intuitively examine and analyze your designs from every angle. It's almost like holding your model in your hand.

While your standard mouse selects, creates and edits, SpaceMouse Pro Wireless handles 3D navigation for a revolutionary two-handed work style preferred by the world's top engineers, architects and 3D professionals.

### **Complete Wireless Freedom**

SpaceMouse Pro Wireless provides a real-time connection to your 3D content with 3Dconnexion 2.4 GHz wireless technology. Just connect the Universal Receiver to your PC or Mac and enjoy the reliability of a wired device coupled with the satisfaction of a cord free desktop. SpaceMouse Pro Wireless will operate for two months between charges. When battery power is low, just connect the USB cable and continue working.

### **Professional Performance At Your Fingertips**

Work smarter, not harder. SpaceMouse Pro Wireless automatically recognizes your application environment and assigns appropriate commands to four soft-touch Intelligent Function Keys.

### **Go one step further**

Assign four-section radial menus to any of the 15 buttons for easy on-screen access to even more of your favorite commands.

Create your own menus in seconds or choose from presets designed to take the capabilities of SpaceMouse Pro Wireless further than ever.

### **Keep Your Eyes on What Matters**

SpaceMouse Pro Wireless's On-Screen Display provides a convenient on-screen reminder of the commands assigned to its Intelligent Function Keys, allowing you to focus on your designs rather than a keystroke cheat sheet.

Simply press and hold any of SpaceMouse Pro Wireless's four Intelligent Function Keys to activate the On-Screen- Display.

### **View Your Work From Every Angle**

Detect errors, explore alternatives, and present your work more effectively for review with the SpaceMouse Pro Wireless 6DoF controller cap and QuickView Keys. Disable rotation axes with the touch of a button in work modes like sketching for simultaneous pan-and-zoom navigation. Whatever your angle, SpaceMouse Pro Wireless gives you the power to see the whole picture.

### **Minimize Hand Movements**

Conveniently positioned keyboard modifiers provide quick and easy access to Control, Shift, Alt and Esc functions, reducing the time you spend moving your hand to the keyboard.

### **World-Class Ergonomics and Build Quality**

3D professionals all over the world rely on 3Dconnexion devices to do their jobs. That means world-class ergonomics and build quality come standard. The SpaceMouse Pro Wireless has a full size, soft-coated hand rest for maximum comfort. Each of its 15 tactile, fully programmable buttons are perfectly positioned for maximum efficiency, packaged into an expertly designed built with the highest quality components.

### **Flexible Connectivity**

Either plug the Universal Receiver directly into your workstation or use the Twin-port USB Hub (included as standard). With a choice of two USB cables, it's easy to connect and charge SpaceMouse Pro Wireless whatever your desktop setup.

### **Carry Case Included**

With a mobile workstation, you often change location and need protection for your mobile device. We included a compact, lightweight carry case with a durable surface for your SpaceMouse Pro Wireless.

## **Technical Specifications**

- Dimensions (LxWxH): 204 x 142 mm x 58mm / 8" x 5.6" x 2.3"
- Weight: 563 g / 1.24 lb / 19,86 oz
- 3-year warranty

## **Supported Operating Systems**

MS Windows 10, MS Windows 8.1, MS Windows 7, macOS 10.10 or later

## **Package Contents**

SpaceMouse® Pro Wireless  
Carry Case  
2.4 GHz USB Universal Receiver  
Twin-port USB Hub  
USB cable 1.5m  
USB cable 0.5m

## **Certifications and Registrations**

CE, FCC, IC, RCM, WPC, BSMI, NCC, KC, MIC, WEEE, RoHS

## **Features and Functions**

- 3Dconnexion® six-degrees-of-freedom (6DoF) sensor
- 3Dconnexion® 2.4GHz wireless technology
- Lithium-ion polymer battery (internal, rechargeable)
- USB connectivity (choice of cables supplied). Simultaneous data and recharging.
- Full-size, soft-coated hand rest
- QuickView Keys
- Rotation Toggle Key

- Intelligent Function Keys
- On-Screen Display
- Keyboard Modifiers (Ctrl, Alt, Shift, Esc)
- Virtual NumPad
- 15 programmable keys in total
